DeepSee Pro

Trawl Net Action Video Recording System

The DeepSee Pro is a self-contained recording system designed to catch the action of a trawl net while fishing. The video can then be loaded on to any PC to watch just minutes after haul back.

HD Picture Quality
- The DeepSee utilizes the most advanced image device and file compression to realize the best picture quality.

Rugged Housing
- The DeepSee Pro is housed in a proven rugged housing made from Urethane and stainless steel.

On Board Lighting
- 1000 lumen's of light powered by the battery will provide hours of light for camera operation.

Remote Controlled Recorder
- The Recording device can be controlled while in the housing with the provided hand-held remote.
